SIGNS AND SYMPTOMS OF EXPOSURE: See Potential Health Effects

SECTION 4. FIRST AID MEASURES

EMERGENCY AND FIRST AID PROCEDURES:

EYES:

Flush eyes with plenty of water for several minutes. Get medical attention if eye irritation persists.

SKIN:

Wash skin with plenty of soap and water for several minutes. Get medical attention if skin irritation develops or persists.

INGESTION:

If person is conscious and can swallow, give two glasses of water, but do not induce vomiting. If vomiting occurs, give fluids again. Have medical personnel determine if evacuation of stomach or induction of vomiting is necessary. Do not give anything by mouth to an unconscious or convulsing person.

INHALATION:

If irritation, headache, nausea or drowsiness occurs, remove to fresh air. Get medical attention if breathing becomes difficult or respiratory irritation persists.

OTHER INSTRUCTIONS:

Aspiration of this product during induced emesis may result in severe lung injury. If evacuation of stomach is necessary, use method least likely to cause aspiration, such as gastric lavage after endotracheal intubation. Contact a poison center for additional treatment information.

Remove and dry-clean or launder clothing soaked or soiled with this material before reuse. Dry cleaning of contaminated clothing may before effective than normal laundering. Inform individuals responsible for cleaning of potential hazards associated with handling contaminated clothing.

MEDICAL CONDITIONS GENERALLY AGGRAVATED BY EXPOSURE: Because of irritating properties, repeated skin contact may aggravate an existing dermatitis (skin condition).

SECTION 6. ACCIDENTAL RELEASE MEASURES

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED:  Ventilate area. Avoid breathing vapor. Wear appropriate personal protective equipment, including appropriate respiratory protection. Contain spill if possible. Wipe up or absorb on suitable material and shovel up. Prevent entry into sewers and waterway. Avoid contact with skin, eyes or clothing.

SECTION 7. HANDLING AND STORAGE

HAZARD LABEL INFORMATION:  Minimum feasible handling temperature. Minimize exposure to high temperature. Avoid water contamination.

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING:  Minimum feasible handling temperatures should be maintained. Periods of high exposure to high temperatures should be minimized. Water contamination should be avoided.

OTHER PRECAUTIONS:  No data available

WORK/HYGIENIC/MAINTENANCE PRACTICES:  Do not smoke while using. Wash hands after use. Use good personal hygiene at all times. Launder soiled clothing before reuse. Keep out of the reach of children.

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

PROTECTIVE EQUIPMENT SUMMARY - HAZARD LABEL INFORMATION
Safety glasses  Goggles or face shield
Wash exposed area with soap and water  Launder or dry clean work clothing.
Adequate ventilation provided.

RESPIRATORY EQUIPMENT (Specify Type):  Airborne concentrations should be kept to lowest levels possible. If vapor, mist or dust is generated and the occupational exposure limit of the product, or any component of the product, is exceeded, use appropriate NIOSH or MSHA approved air purifying or air supplied respirator after determining the airborne concentration of the containment. Air supplied respirators should always be worn when airborne concentration of the containment or oxygen content is unknown.

EYE PROTECTION:  Safety glasses, chemical type goggles, or face shield recommended to prevent eye contact.

PROTECTIVE GLOVES:  Workers should wash exposed skin several times daily with soap and water. Soiled work clothing should be laundered or dry-cleaned.
